Commissioner for Patents

Sir:

Listed on accompanying IDS Forms, PTO/SB/08A and PTO/SB/08B, are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98. The numbering on this Eighth Supplemental Information Disclosure Statement is a continuation of the numbering in Applicants' Seventh Supplemental Information Disclosure Statement filed on February 18, 2005 in connection with the above-captioned application.

Copies of documents AO24 to AN25 and AS214 to AR220 are submitted. However, in accordance with 37 C.F.R. § 1.98(a)(2), copies of U.S. patents and patent application publications documents AF24 to AA26, cited on the attached IDS Form, PTO/SB08A, are not submitted. In addition, copies of documents AS220 to AS221 are not provided in accordance with the U.S. Patent and Trademark Office OG notice of October 19, 2004, which states: "the requirement in 37 C.F.R. § 1.98(a)(2)(iii) for a legible copy of the specification, including the claims, and drawings of each cited pending U.S. patent application (or portion of the application which caused it to be listed) is sua sponte waived where the cited pending application is stored in the USPTO's IFW system."

The Examiner's attention is directed to the following co-pending U.S. Patent Applications, which are directed to related technical subject matter:

Application No. 11/106,715, Byrd et al., filed April 15, 2005 and listed as Document AS220;

Application No. 11/249,274, Hartley et al., filed October 14, 2005 and listed as Document AT220;

Application No. 11/251,821, Brasch et al., filed October 18, 2005 and listed as Document AR221; and

Application No. 11/290,804, Gray et al., filed December 1, 2005 and listed as Document AS221.

In accordance with the recent Federal Circuit decision in *Dayco Prods., Inc. v. Total Containment, Inc.* 329 F.3d 1358 (Fed. Cir. 2003), Applicants submit herewith Office Actions from:

the related co-pending U.S. Patent Application No. 09/432,085, Hartley et al, as Document AR217;

the related co-pending U.S. Patent Application No. 09/517,466, Hartley et al, as Document AS217;

the related co-pending U.S. Patent Application No. 09/855,797, Hartley et al, as Documents AT217 and AR218;

the related co-pending U.S. Patent Application No. 09/907,719, Hartley et al, as Document AS218;

the related co-pending U.S. Patent Application No. 10/058,292, Hartley et al, as Documents AT218 and AR219;

the related co-pending U.S. Patent Application No. 10/151,690, Brasch et al, as Document AS219;

the related co-pending U.S. Patent Application No. 10/162,879, Hartley et al, as Documents AT219 and AR220;

which are directed to related technical subject matter. The identification of these Office Actions and applications is not to be construed as a waiver of secrecy as to those applications now or upon issuance of the present application as a patent.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicants have listed publication dates on the attached IDS Forms based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith.

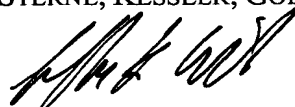

This Information Disclosure Statement is being filed before the mailing of a first Office Action after the filing of a request for continued examination under 37 C.F.R. § 1.114. No statement or fee is required.

It is respectfully requested that the Examiner initial and return a copy of the enclosed IDS Forms, and indicate in the official file wrapper of this patent application that the documents have been considered.

The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,
